

Spindle and Wheel

Spindle And Wheel

McCormick Assorted Food Color Drops

Price per Unit (piece): \$4.50

These are the very best value, you can dye 5 to 10 pounds of wool, or more, with one box, depending on how dark you would like the colors. There is also a handy color mixing guide on the back of each box to get you started.

Food Color Drops are so fun, and mix well into almost any color you could want. The purple mixed with these colors is best done in two steps, first dyeing blue, then dyeing red at a lower acid amount. This is a safe product, but gloves may be worn if desired.
